

GRADE Refrigeration LLC

IN TOUCH

With The World of GRADE

Welcome to GEA GRADE Refrigeration LLC

GRADE is a joint venture between GRASSO and ADEAREST and is part of a leading global group in Industrial Refrigeration. We design, install and maintain innovative refrigeration components and systems for our customers for whom Industrial Refrigeration is an essential part of their daily business.

We are dedicated to serve our customers in the Middle East and North Africa and are able to meet their expanding needs and deliver high quality solutions in a competitive environment.

Our business philosophy is based on fostering long-term relationships with our customers, empowering our people to perform at the highest levels and on continuously developing innovative and sustainable solutions in industrial refrigeration.

Our experts provide tailor-made solutions to cooling and control challenges in the following market sectors:-

- Multipurpose & CA Cold Stores
- Pre- Cooling and Freezing Systems
- Beverage Industry
- Slaughter Houses (Meat and poultry)
- Dairy and Ice Cream Factories
- Fish processing plants
- Block & flake Ice Plants
- Ice Rinks & Snow Domes
- Concrete Cooling
- Chemical and Pharmaceutical factories

We Offer...

Solutions

Custom made solutions are offered for each client. After initial meetings to establish a clear terms of reference, our sales engineers together with support from our engineering office translate the requirements into affordable solutions.

EPC Projects

We offer our clients Engineering, Procurement & Construction (EPC) service to realize their requirements. We design the installations, procure the necessary materials and build the project using mostly our in house trained installation teams.

Our EPC project service results in a reduced stress for the owner, offers a single point of contact, simplifies communications, ensures quality and reduces co-ordination issues.

We hold high standards in the refrigeration contracting business and we have successfully managed some of the largest and most intricate industrial refrigeration projects in the MENA region.

Components

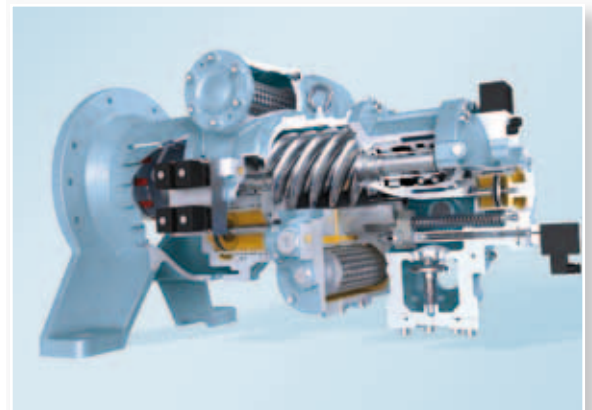

GEA Refrigeration manufactures an extensive range of industrial refrigeration equipment and components. Grade engineers will be pleased to discuss your component needs and provide assistance in design and selection. Our product range includes:-

- Screw & Piston compressors
- Chillers & Heat Pumps
- Pressure vessels
- Packages and Skids
- Ice machines
- Freezers
- Valves & controls
- Dryers
- Purgers
- Control Units

Spare Parts

At Grade Refrigeration we understand that an efficient spare parts support organization is essential for ensuring customer satisfaction. We hold a large stock of basic fast moving parts for emergency customer support. In addition, planned maintenance parts are shipped from our stores in Europe direct to our clients at short notice.

Service & Maintenance

After sale support is an essential feature of our business philosophy. We offer our clients a number of options to ensure their plants are well serviced and maintained:-

Service contracts

Custom tailored service contracts to suite client's specific requirements are offered under a long term service agreement. Grade offers an onsite, fully manned presence or an on call basis service attendance as demanded by clients. Our experience has shown that regular preventative maintenance is cheaper than waiting for breakdowns to occur and hence a detailed service system for our plants has been developed. Our Engineers will be pleased to discuss the optimum service approach for your project.

Apart from the regular service contracts on offer, our service engineers are on standby to provide "on call" technical support.

Training

Training seminars are designed to provide attendees with a basic knowledge on the operation, maintenance, and troubleshooting of refrigeration systems. Training is accomplished through both lecture and hands-on seminars.

Local presence

Our proximity guarantees you the most rapid response
